VOLUME XXXIV. UKIAH CITY, MENDOCINO COUNTY, CAL., FRIDAY MORNING, JULY 31, 1903. NUMBER 44

FROM OREGON AND WASHINGTON

Senator Sanford Enjoying Life in The Webfoot Country

Some of the readers of the DISPATCH may be interested in the northwest country, so it will not be amiss to drop a few lines home as I travel thru the country.

Ye editor left home a few days after the 4th of July on a tour of the northwest, visiting the various Courts of Ancient Forestry. So far the trip has been an exceedingly pleasant one. We left San Francisco in the evening and missed the heat of the Sacramento valley. When we awoke next morning we were above Redding, winding around thru the gorges where the Sacramento is about the size of Mill creek. The scenery was picturesque and grand. Old Mt. Shasta with her crest of eternal snow loomed up against the horizon like a ghost in the darkness. It took the greater part of the day to get out of sight of this great snow bank.

Ashland and Medford, the first two towns reached upon entering Oregon from California, are prettily located in quite a fruit belt. I dropped off at Medford to visit a Court and had a good opportunity to see the Rogue river valley and the town. The little burg is about the size of Ukiah and is up-to-date in every way. The streets have good sidewalks and are well taken care of. The buildings are good substantial brick structures, no old wooden shacks being on the main street. Further on the Willamette valley, the garden spot and most productive part of Oregon, is entered. This is indeed a beautiful valley, dotted here and there with little towns along the bank of the river. Hops are also produced here. From what I could see from the train, the hop crop was rather poor, at least the growth was not up to that of the Russian river valley hops this year. The growers were much encouraged and expected to get a good price for the blossom.

The next towns visited were Portland, Troutdale and Oregon City in Oregon and Washougal and La Camas across the Columbia in Washington. Portland is a big city of 125,000 people now and carries on an immense trade with the towns east, north and south. Steamers are continually going up and down the Willamette and Columbia, stopping at all the farms for produce and freight of all descriptions. At Troutdale is located the Union Packing company's big plant. Hundreds of hogs, cattle and sheep are slaughtered here each day, employment being given to over 100 men. Saw mills and logging camps are located back up the tributary streams. From Troutdale I was taken across the Columbia in a little sail boat to Washougal by an old ferryman, who had been at the business in this same place since '62. The Columbia is a mile and a half wide here and quite rough at times, but no trouble was experienced in getting across. One of the largest paper mills in the United States is located at Camas on the banks of the Columbia. The mill is right in the little town and reminds me somewhat of the saw mills along the Mendocino coast, giving employment to equally as many men. Saw mills and shingle mills are to be found everywhere and the output of lumber is enormous.

I went down the Columbia and Willamette to Portland again and took a new start, arriving in Tacoma after a six hours trip. Here is another flourishing town of 60,000 people. Saw mills and saw mills in every direction and steamers plying to and fro from all points along the sound. There is activity in all lines of business. The northwest is just opening up and the fields for development are wide and varied. One can go from Tacoma to Seattle by regular trains and steamers four or five times a day or by electric cars every hour. The distance is about forty miles. I went by way of the electric system, making the distance in an hour and a quarter. The steamer "Tacoma Flyer" makes it in an hour and three-quarters.

Seattle is the town of the northwest, however. It is beautifully located between the sound and lake Washington, a fine body of water about twenty miles long and from five to eight miles wide. The outskirts of Seattle border on this lake, where parks and all kinds of pleasure resorts are located. The town reminds one of San Francisco on account of the hills. The residence portion is back on the hills from whence a splendid view is had of the sound on one side and lakes Washington, Union and Green on the other. It is ideal in its picturesque beauty. Seattle is doing a big business and is growing rapidly. It now has over 110,000 people and is destined some day to be a rival of San Francisco in reality. Some of the big buildings would do San Francisco proud. It is a new town and every building erected is modern and up-to-date.

While here I met many former Mendocinoites. J. L. O'Rouke and wife have a nice little home out on John street. From here one can see all over the town and sound and to the south Mt. Rainier lifts her proud snowy head to the clouds. Jack is still one of the Western Union's faithful operators and has a good position. My wife and mother are paying Mr. and Mrs. O'Rouke a long promised visit while I visit the various Courts in this section of the state.

Up on 14th avenue, a few blocks from O'Rouke's, Will Gibson and wife have a nice little cosy home. Will has a little boy about four years old and is as proud as can be. If any one in Seattle has done well, Will surely has. He came here five years ago and now owns a big map and blue print establishment and has a number of men working for him. He does a big business and is enjoying life. Will and I were seatmates and class-mates in the Ukiah public school just twenty years ago. We talked and laughed over "old times" until we cried. The trouble we gave our teachers and the time we spent "standing up" or "staying in" at recess were the topics of conversation. If Professor Babcock or Mrs. W. D. White had been near and heard us tell about the things they failed "to catch us at," they would have been tempted to have "licked" us again.

While Will and I were chatting who should step in but Charley Walker! He and E. E. Pearson are located out at Aberdeen and had come over to Seattle on business.

Allie and Mack Carpenter, Will Siddons, Wm. Coats and Walter Broback are all located here.

Dave S. Wurtemburg is a bookkeeper for Will Gibson and is doing nicely.

Al Ryan is a policeman and Mamie Ryan has a millinery establishment here.

Harry Goggins is also located here, and Dufay Taft was seen on the streets of Seattle a few days ago.

H. M. Bransford is located at Astoria and is engaged in the oyster business there.

Wm. B. Rowland and wife have a nice home in Seattle and are doing well.

Mrs. G. W. Gibson, of Ukiah, is visiting her son, Will Gibson, at Seattle.

A grand reunion of the Seattle Ukiahites is planned for the near future. More anon. J. B. S.

GENERAL NEWS OF THE WEEK

Gathered From Here There and Everywhere.

Summary of What has Just Occurred. Accidents And Incidents

A few days ago Steve Tarter, who keeps a saloon at French, in this county, was brot to Ukiah under arrest and locked up on a charge of murder. He is accused of having killed a Russian Finn named Charles Solax at French on July 20th. Tarter is a native of Virginia, 73 years old and has lived in this county for many years. He formerly resided at Point Arena, and is pretty widely known. The accused declined to give a DISPATCH representative a detailed account of the trouble between himself and the deceased Solax. On last Monday an attempt was made in the Superior Court, Judge Emmet Seawell presiding, to have Tarter released on habeas corpus, as he had been committed by the Justice of the Peace, acting as coroner, without a preliminary examination. Judge Seawell was not prepared to grant the writ and continued the matter for consideration.

Tarter was released on habeas corpus Wednesday morning on account of the defect in the commitment, but was rearrested the same day under a new warrant. His preliminary examination was set for next Wednesday at 10 o'clock a. m. before Justice Crockett.

Mannon-Bramlet Marriage

Charles McFerson Mannon, and Miss Eva Bramlet, were united in marriage last Wednesday July 29th at the home of the bride's parents at Berkeley. The bride is the accomplished, beautiful and amiable daughter of Mr. and Mrs. R. H. Bramlet, of Berkeley. The father of the bride, Mr. R. H. Bramlet, was formerly superintendent of schools in Fresno county. Miss Bramlet has visited in Ukiah and made many friends here.

The groom is a son of ex-Judge and Mrs. J. M. Mannon and is associated with his father in the practice of law. He is a young man of excellent character, agreeable disposition and of ability in his profession. The young couple will reside in Ukiah, where, on their return from their honeymoon, they will be cordially greeted by many friends and well-wishers. THE DISPATCH joins in wishing them a long, successful and happy life.

Arrested for Robbery

Ira Farley, a laborer and a young man, is in jail, committed by Justice Kenworthy of Willits on a charge of robbery. Farley was a passenger on the stage running between Willits and Laytonville. On the stage, between the seats there was a box of merchandise consigned to someone on the Geo. A. Knight place. The box was found to be broken open and a pair of ladies shoes was missing. The shoes were afterward found in the road by a party that was following the stage. According to the story of the accused, nothing else was missing, and he claims that the box was bursted by rough handling in transit.

Mail Contract Let

Otto Nunenmacher, B. C. Larmour and T. H. Hanes were here yesterday from Comfort for the purpose of executing bonds for carrying the mail between Comfort and Booneville. Heretofore the mail has been carried by private parties without compensation, but recently bids were asked and the contract awarded.

Mr. Jacob McGuffin and wife, of Cordelia, who were recently called to Potter Valley, owing to the death of their father, Robert Hale McGuffin of that place, returned to their home on Saturday's train. They were accompanied as far as Ukiah by their brother, J. B. McGuffin. Mr. Isaac McGuffin returned to his home in Oroville on the 21st inst.

Superintendent Barbee believes in being up with the times and ready for all future contingencies. As work in the Superintendent's office is increasing rapidly, there being already almost too much work for two, he has made provision for another deputy. This deputy already weighs eleven pounds, and will be ready for business in the fullness of time.

HEYWOOD TAKES HIS OWN LIFE

President of the Gualala Mill Company Commits Suicide at Home

Franklin Heywood, a wealthy lumberman and president of the Gualala Mill company, was found dead early Tuesday morning at his residence at 1490 Hayes street, San Francisco. He had taken his life by inhaling gas thru a small rubber hose, one end of which was in his mouth and the other end attached to the open jet on the wall of the bath room, in which he was found.

The deceased's relatives can offer no explanation for the deed except that he might have been seized with suicidal mania during a spell of temporary insanity. During the past four or five days the deceased is said to have been afflicted with a loss of memory and to have forgotten all about his business affairs.

All the members of Heywood's family were away. His wife and stepdaughter were in Santa Cruz on their summer vacation. About 6:30 o'clock Tuesday morning, it always having been the man's custom to arise early, Mrs. S. Woodward, the housekeeper, went to his room to call him. As she approached the door she noticed the odor of gas, and looking in found the room empty. The gas seemed to be coming from a bath room, adjoining the bedroom and upon further investigation the woman found the body there.

The dead man's brother-in-law does not think that Heywood ended his life because of threatened financial trouble, claiming that the deceased's business is in a flourishing condition. He states, however, that within the past week the deceased had shown symptoms of insanity. At times he seemed to lose his mind entirely.

Prof. Ray Goes to Covelo

Prof. J. C. Ray came up as far as Ukiah Wednesday on his way to Covelo, where he will take the principalship of the new Union High school recently organized there. We can say from a personal knowledge of Professor Ray, extending back for a good many years, that a better choice could not have been made. After a successful experience in teaching in the grammar schools, Professor Ray took up high school work and prosecuted it with marked success. He was principal in a large Union High school in the Sacramento valley for five years and brot it up from the beginning to a high state of excellence, leaving it by resignation, an accredited school. He then took a full course at Stanford University, graduating with honor. He is fully in touch with the educational work of the day thruout the country, and if given an opportunity will make the Covelo school one of the best in the state. We bespeak for Professor Ray the cordial co-operation of the trustees of the Covelo High School, and of the people of the district.

Broke His Ankle

E. J. ("Chief") Sanford had the misfortune to break his left ankle in the ball game here last Sunday afternoon. He was running the bases, and in sliding feet foremost to second base, his foot struck the iron pin which was driven in to hold down the bag. The pin had worked up above the surface. The ankle bone was broken just above the socket. Dr. Moore reduced the fracture and "Chief" is stopping in town under the Doctor's care.

Don't forget the fireman's dance tonight.

"California To-Day"

"California Today," an attractive volume of 160 pages which has been issued by the California Promotion committee, is a work which is destined to have an enduring value. The volume has been written to present the conditions as they are in California. It treats impartially of the whole state, each section receiving careful and authentic notice. There are sixty-one representative full page half-tones in the volume and many valuable tables. No better presentation of every branch of industry in California has ever been given. The volume is strictly down-to-date in every respect and all the statistics are the latest possible obtainable, while the descriptions and presentations of real conditions have been carefullly written, edited and have met the approval of some of the most experienced residents in each portion of the state. A year of careful work has been devoted to the preparation of this volume, and from the fact that the Promotion committee is a patriotic organization with its object the settlement and development of California, that it is supported by donations and that its members give their time gratuitously, one is assured of an impartial presentation of California resources.

The California Promotion committee is certainly to be congratulated upon "California Today." The book is a good readable common sense work replete with information, and no one who desires to be thoroly and accurately informed can afford to be without it.

"California Today" has been edited by C. S. Aiken.

The Commoner.

(*Mr. Bryan's Paper.*)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and THE DISPATCH together for one year for $3.25. The regular subscription price of the two papers when subcribed for separately is $3.50.

What Has Transpired This Week In The Fog Belt.

PT ARENA CULLINGS.

From The Record.

The Ukiah papers want all the ordinances of that city enforced or repealed. There are some county ordinances also that need attention in that direction.

Revenue Collector Williams dropped into Point Arena last week, but with the exception of some of our saloon men selling beer by the barrel, found the law obeyed by the liquor men. At Mendocino he found a number of violations of the law.

A number of residents of this place and vicinity go to San Francisco this week to file homestead entries on the land about to be opened in township 13, range 16. It is understood that a script has already been placed on the land, and a contest will be made. The firm of Mannon & Mannon has been retained by the settlers, who do not propose to surrender their rights without a struggle. Some twenty or thirty claim homestead privileges.

A distressing accident occurred Tuesday on the Elk creek railroad. Men were engaged loading logs onto a car on an incline, and it was James Connor's duty to block the cars and in doing so he slipped and fell, the car passing over him. Both legs were mangled terribly. He was taken to town and placed under the care of Dr. Diddle, but the unfortunate man was injured internally as well as externally and died about 1 o'clock that afternoon. Deceased had been in the employ of the L. E. White Lumber company for nine years, and was well thot of by his associates. He was about forty years of age.

Work on the tunnel is nearing completion. The workmen from each end met Thursday near the center and finished timbering. Laying the track and putting on a few finishing touches is all that is now necessary.

Wm. Munroe, of Mendocino, was brot to the hospital last week a very sick man. We are pleased to report that he is improving nicely and will soon be able to return home.

John Lynch who was brot to the hospital last May from Albion being injured on the Fort Bragg and Southeastern railroad, is doing well, the skin grafts applied being successful.

Very Remarkable Cure of Diarrhoea

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' perscriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine costing but a few cents, cured me." For sale by J. R. Mathews Drug Co.

MENDOCINO PICK-UPS.

From the Beacon.)

The fog came down in a generous quantity Sunday night. The dust was nicely settled Monday morning.

A very pleasant birthday party was given Miss Helene Standish by her parents at her home on Albion Heights Tuesday evening, the occasion being her sixteenth birthday.

The body of the late Ernest Barry arrived here on Tuesday's steamer from Los Angeles, and was buried in Evergreen cemetery under the auspices of the Native Sons, of Greenwood, the same day.

In the case of the People vs. John Borelli, on a charge of assault with a deadly weapon, on the person of one Gus Haber, the accused was bound over in $250 bonds to appear for preliminary examination Tuesday, August 4th.

The Bank of Mendocino has sold the Bennet ranch on Elk creek to David Squires, the present tenant. There are 1520 acres in the tract. W. G. Henshaw, the Oakland capitalist, purchased the Barny place in the same neighborhood. There are 1120 acres in the ranch.

In deference to the desires of Superintendent Smith the Mendocino Lighting company has secured the services of a competent electrical engineer, who will assume full charge of the plant and business of the company on the 1st of August. Robert Simonds, formerly of Napa, is to be the man, and is on the ground studying the conditions which he is called upon to meet.

The Mendocino Lumber company launched their new lighter Thursday evening. The sight was a pretty one. The builders, Messrs. R. H. Coombs, sr., and Chas. Pullen, of Littleriver, had the ways well greased and when the last jackscrew was taken out she gracefully glided into the water without a hitch. The barge is a splendid piece of carpentry and reflects credit upon the builders. With this lighter's help vessels can be loaded direct and save much valuable time. About 55,000 ties will be shipped by the company this month, the board measurement reaching over a million and a half feet.

A Letter From Litchfield, Neb.

Thomas Clancy, of Litchfield, Neb. wrote us a few weeks ago about his experience with Dr. Gunn's Blood & Nerve Tonic. As his case may be similar to others it naturally would be of interest to them to know the result of his test. He had been haunted for years with a gradual growing weakness until he was reduced to almost a shadow. His complexion was sallow and pimply, had dizzy and sinking spells, with loss of memory and ambition. Always felt tired and outdone, suffered greatly with nervousness, and felt that his heart's action was weak. His digestion was so poor his system received no nutriment. He says he commenced the use of this Tonic, taking one tablet after each meal. He did not notice much change after using one box only he enjoyed his meals better, still he kept on until he had used six boxes. He used the last box more than six months ago. When he stopped the use of the Tonic he weighed 28 lbs. more than he did when he commenced. Has not been sick a day since, and is well in both mind and body. Dr. Gunn's Blood & Nerve Tonic is the best medicine in the world for pale, weak or sickly women. Sold by all druggists for 75c per box, or sent by mail on receipt of price. Write us about your case. Utilizing our Resources

Although we Californians delight to, and have a right to boast of our remarkable facilities for dairying, as the present season begins to slack up and our market keeps going up, notwithstanding heavy receipts of eastern butter, it becomes apparent that these favorable dairy conditions are not being developed as rapidly as the increasing consumption would warrant. With alfalfa, the "king" of crops in California, thoroughly demonstrated as the cheapest source of cow food and which grows in California as it grows no where else, it looks as though the wealth that may come through dairying was not appreciated by our present population.

Not only are the money making possibilities of dairying over-looked but there is another line of profit to be derived from alfalfa cultivation that is even easier than dairying and that is hog raising. Amoug the great amounts of freight that cross the mountains and deserts intervening between us and the middle-west, dressed pork and pork products are among the most conspicuous. Not many years ago this was attributed to the theory, admitted by our coast farmers, that pork could only be profitably grown upon corn and that in the failure to grow this crop in California meant that we could not grow pork good enough in quality to compete with the east. Time, however, works many changes. Now the farmers in the corn states are making every effort to successfully grow alfalfa because it produces cheaper and just as good hogs and more healthy ones than can be done on corn. The California farmer who can grow alfalfa upon irrigated land is certainly letting a good thing go by in the money that goes east for pork and instead raise fruit and other products that only find a market after being shipped across the continent, and in case of some of his products, across the ocean. It illustrates the great need in California of a campaign of education among her farmers, something like Canada and some European countries are doing, to instruct farmers how to most profitably utilize their resources.—Dairy and Produce Review.

More About Hops

What appears to be a comprehensive statement of the general hop situation, by Hugh F. Fox, one of the best known hop men in the United States, appeared in the Seattle Post-Intelligencer of July 23rd, and it is the most recent statement of importance we have seen. Mr. Fox lives at Bayonne, New Jersey, and has been in the hop buying and exporting business in New York for many years. To the Post-Intelligencer he said in part as follows:

"The hop crop of Washington and Oregon will be as large or larger than last year, tho California will will not make as good a showing, and reports from all other hop producing parts of the world indicate that prices will be at least fair for the coming season. It may be said that the crop of the world is practically established as to quantity now, and the weather conditions hereafter will determine the quality. With a crop about average in the United States, and a good yield abroad, we need not expect low prices, and I should predict that the market would not go much below 15 cents on the coast.

"All estimates which we may make on the yield of the hop fields are taking the assumption that weather conditions hereafter will be good for the maturing berry. England is the one country of the world consuming more hops than it produces, and the quantity imported there largely determines the American market. Germany and certain of the other continental countries produce more than is consumed, but it is difficult to estimate that yield.

"Practically four states produce the American crop—New York, Washington, Oregon and California. The greater portion is grown on the Pacific coast, and of the western states Oregon has the largest yield. Careful estimates place the American yield at from 215,000 to 225,000 bales, distributing 65,000 bales to New York, 80,000 to Oregon, 35,000 to Washington and 45,000 to California. It is probable that the yield of New York will be 5,000 bales more than last year, and Oregon the same amount of increase, while Washington and California will have about the same figures as last year, with California's quality below the average.

"Outside these four states there are not more than 2,000 bales of hops grown in the country. About 500 bales of these come from Wisconsin and the others from half a dozen different states.

"The stock of last year's hops is about exhausted and the remainder is selling at the rate of 3,000 bales a month. The hops still held on the coast are principally those which were left over at the breaking up of the Oregon pool, which did not prove to be an altogether satisfactory venture on the part of the growers. There is a small stock constantly left in the market. For instance about 10,000 bales of 1896 and 1897 hops are in the New York warehouses yet, and have sufficient value to have a bearing on the market.

"With these and the hops imported, for about 15,000 bales are brot into the country from Germany annually, the total prospective stock in the fall is 260,000 bales. Last year the beer consumed in this country was 45,000,000 barrels. It will be 47,000,000 barrels this year, and that will mean the consumption of 194,000 bales of hops. Thus, supposing the crop is entirely used and the market conditions are normal, we will have a surplus of 66,000 bales, and we usually export that number, so there will be just enough to go around, and low prices cannot prevail for any continued leugth of time; too many would attempt to take advantage of them.

"The recent warm weather all over this country and in England and Germany has been the salvation of the 1903 crop. Before that time the prospects had been decidedly unfavorable. The vines which were apparently dead have grown in the warm sun, and if the good weather continues the hop men will be pleased.

"The acreage in Washington has been increased this year to a certain extent, without reference to any particular locality, and in Oregon the increase is considerable. The extent of the fields in Oregon would provide for a crop of 100,000 bales, but as large a yield has never been produced.

"Taking all these things into consideration it would seem that we have reason to expect at least good prices the coming season, and certainly no very low mark. The quality of the crop is yet to be determined to a large extent by the weather conditions. Too much warm weather will not be good. The English market will not want so many hops this year, at least judging from the present condition. The crop will be from 450,000 to 500,000 cwt.—two hundred weight to the bale—against 340,000 in 1902, which was a bad year."

WHY WE ARE AGENTS

Here Are Some of the Convincing Facts That Caused us to Take the Agency for the Fulton Compounds, the First Things Known that Cure Chronic Kidney Diseases.

First, let it be distinctly understood that every one of the cases below had been diagnosed by one or more physicians as chronic and incurable; second, note the certainty of the results as shown by the recovery also of the friends they told who were similarly afflicted with supposed incurable kidney diseases.

N. W. Spaulding, President Spaulding Saw Co., San Francisco, had a recovery in his own family and told several others who recovered.

Adolph Weske, capitalist, San Francisco, recovered himself and told two friends who recovered.

Dr. Carl D. Ziele, pioneer druggist, 522 Pacific street, San Francisco, recovered himself and gave it to more than a dozen patients who recovered.

Charles Engelke, editor of the German paper, San Francisco, recovered himself and told it to a number who recovered, one of them being Charles F. Wacker, the Sixth street merchant.

N. M. Wood, editor Wine and Spirit Review, recovered himself and told it to several who recovered, among them being an old-school physician.

Edward Short of the San Francisco Call recovered, also three of his friends, viz: William Martin, Captain Hubbard of the Honolulu route and William Hawkins of the U. S. Quartermaster's Department of San Francisco.

John A. Phelps of the Hotel Repelier, San Francisco, and two of his friends, etc etc

The kidneys are the sewers that strain the poisons out of the system. We can stand the derangement for a short while, but when the interference becomes chronic (permanent), as first explained by Bright, it is only a question of how long before death will ensue. It is then called Brights Disease and incurable. All kidney troubles develop into this form about the 8th to 10th month. The above cases were incurable by all other known means. People having kidney disease should begin at first with the only known thing that will cure it if it has reached the serious stage. Baseball News

Victory number three was scored by the home ball team last Sunday, and the largest and noisiest crowd of the season was on the bleachers and along the side lines.

Hopland, smarting under the first defeat, came back at the Ukiah lads for a return game with a considerably strengthened lineup, but the boys from the land of hops were destined to go down to defeat a second time.

Ukiah, after the first inning, was badly crippled by the loss of the old reliable "Chief." After rapping out a pretty single which scored Hagans from second, "Chief" stole the second sack. The play was a close one, and the old boy gamely "bit the dirt" and slid. In doing so he turned his ankle, and after a medical examination the limb was discovered to be broken.

This accident put "Chief" out of the game, and Wirt then took his place in the box, while Van Winkle was put at second. The game now looked like easy picking for Hopland, but Wirt held the visitors down to two hits, and brilliant fielding did the rest.

The final score was 6 to 1 with Ukiah on the best end, and a happier crowd never left the home grounds. One of the most noteworthy features of the game was the work of the outfield, that of Porterfield showing especially good.

Van played his usual good game at first and bumped the leather for three nice hits.

Duff did good service behind the bat and little Doc Chalfant at short gathered in all kinds of hard chances.

Next Sundays game will be a hot one. Geyserville comes here with a good fast team and there'll be a hot contest. The home boys are out to win and they want you to come out and root.

Official scorers Briggs and Seawell present the following averages for this week:

Batting—Sanford, 500; Van Voast and Wirt, 454; Hagans, 300; Duff 272; Gibson and Van Winkle, 250; Hughes, 167; Chalfant, 167; George, 98; Lynch and Porterfield, .000.

Fielding—Sanford, Van Voast, Porterfield, Hughes and Gibson, 1000; Duff, 965; Chalfant, 857; Wirt, 813; Hagans, 625; Lynch and Van Winkle 500.

Doings in the Redwoods

PERKINS CAMP, July 28—Thomas Megaw and his force have commenced the trestle work on the new branch railway down the west of the lake. This piece of road, when completed, will tap at least ten million feet of redwood timber and will be logged out this winter.

The horse team gulch will be entirely logged out by the first of September. Ramsey Cook is conductor of the team and his chain tender is Charley Hoe.

Jack Baskerville, foreman of the skidd road, has nearly all the road skidded, and Jack knows just how to do it.

The Mendocino Lumber Company has purchased a large skidder which is now at the boom where it will be used for hauling the heavy logs from the river bottom. For fifteen miles above the boom the bottom of the river is paved with logs.

The Big River Milling Company has put a telephone line from Mendocino to Perkins Camp.

Henry Stauer has bronght four cows up here and is now furnishing milk to the men at a very reasonable rate.

Frank Finear, better known as Portuguese Frank, says his business has improved much since the logging camp is built so near his saloon. Frank is 105 years old and has been an excessive drinker for 80 years. He thinks he will live ten years more. Nigger Nat, also a centenarian, claims that he and Frank were the first white men in the county. The old negro makes this remark in order to distinguish them from the Indians.

The new dance hall is finished and the dance given last Saturday night was a great success. Over two hundred dancers participated in tripping the light fantastic toe. The greater part came up from Mendocino. At midnight a fine lunch was served by Mrs. J. P. Lilley, Mrs. Paul Curless, Mrs. Moore and others. Some of the dancers to mention were J. P. Lilley and wife, Paul Curless and wife, C. P. Dustin and wife, R. S. Perkins and wife, George Hoe and wife, Percy Daniels and wife, A. S. Patton and wife, Mr. Markle and wife, A. Finstrum and wife, Joe King and wife, Tom Megaw, Minnie Brown, Joe Wassen, Emily Brown, C. R. Perkins, Alpha West, Elias Knudson, Carrie Brown, P. S. Cunningham, Elizabeth Gray, R. B. "WILFUL WASTE

MAKES WOEFUL WANT."

That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

STATE OF CALIFORNIA, } SS
COUNTY OF MENDOCINO

John Taylor, being duly sworn, deposes and says: That he is the Public Administrator of the County of Mendocino and that the foregoing is a full, true and correct return of all estates of decedents which have come into his hands for the estates hereinbefore named. That he is not, and was not, at any time interested in the expenditures of any kind made on account of any estate he administers nor is he associated in business or otherwise with anyone who is so interested.

JOHN TAYLOR.

Subscribed and sworn to before me this 30th day of June, 1903.

[SEAL] W. P. THOMAS, Notary Public.

A LITTLE NONSENSE.

The Effects Tommy's Thoughts Had on His Teacher.

"I don't want to seem conceited," said the young schoolma'am, "but really, you know, my room has a very good reputation, of which up to yesterday I was extremely proud. The parents of my pupils regard me very favorably, I know, but as for myself my pride has received its fall.

"I was dining last night with a friend whose little boy is a pupil of mine. The little fellow was trotted away to bed as soon as dinner was over. Just then my friend's brother came in and met Tommy in the hall.

"'Teacher's in there,' I heard Tommy whisper loudly to his uncle.

"'Is she?' was the response. 'Well, what do you think of her, Tommy?'

"'Oh, she's well enough in her way,' was the serious reply, 'but sometimes she is awfully stupid. She can't remember anything. Why, day after day she has to get the kids to repeat things that have been told to her the day before and every day for a month.'

"And now," said the teacher ruefully, "I actually feel embarrassed as I stand before my class, for if Tommy has such queer ideas about me what thoughts may not go tumbling about in those busy little brains as the children sit there so quietly!"—New York Times.

Had a Vacation.

"Did you hear the lecture last night?"

"No; my wife is visiting her mother."

Paid What He Could.

Everbroke—I want to pay you something on account.

Tailor (rubbing his hands)—Ah, I'm glad to see you.

Everbroke—Yes, I want to pay you a compliment on your artistic way of dunning. Sh—not a word—you deserve it. Good morning.—Kansas City Journal.

Crittick—Why, its feet are all wrong.

Poet—Perhaps so, but the editor's weren't. I got one of them all right.—Philadelphia Public Ledger.

An Explanation.

"Why is it that wealthy people become so cold and cynical?"

"They don't necessarily," answered Mr. Cumrox. "They have their enthusiasms. The trouble is that a rich man can't admire anything without being solicited to buy it."—Washington Star.

As It Is Spoke.

She—You say your automobile has been acting strangely all day?

He—Yes; it has stopped I don't know how many times.

She—And what are you putting the oil on it for?

He—To stop it stopping.—Yonkers Statesman.

Or Greediness.

"Yes, Halwood, I shall marry an economical girl."

"What do you call an economical girl?"

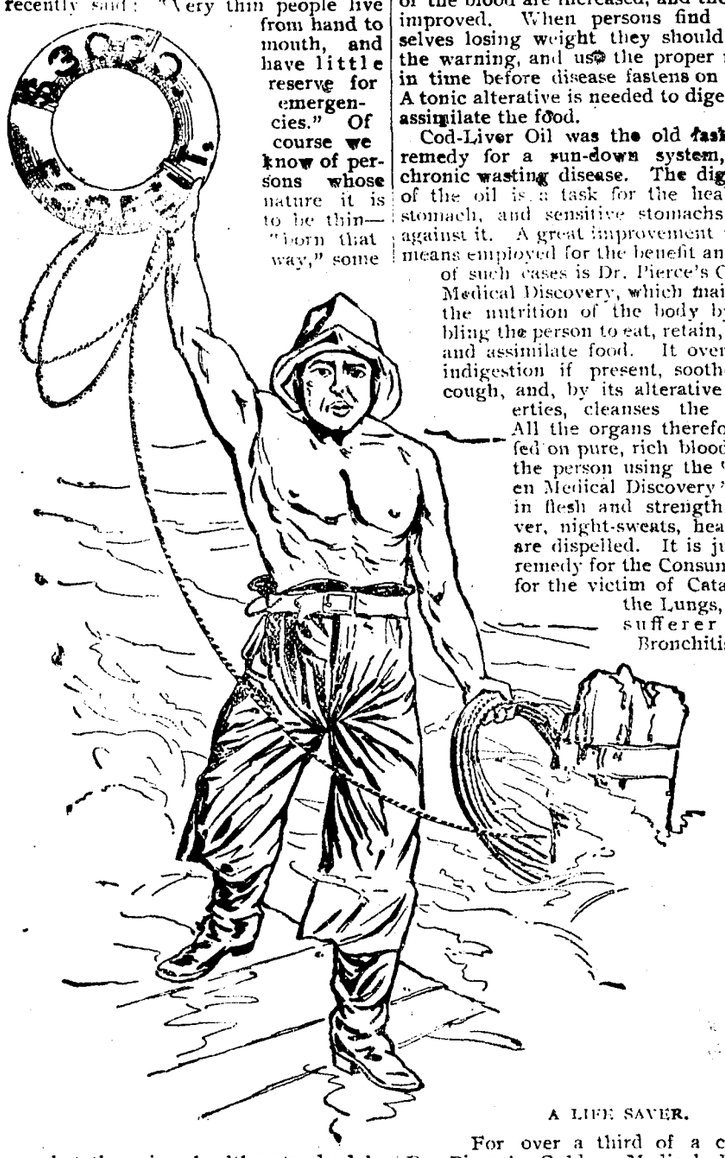
"Why, one that would rather have her candy in a paper bag than a fancy box because you get more."—Chicago News.

LIVING FROM HAND TO MOUTH.

It Means Starvation for Some.

An eminent physician of this city recently said: "Very thin people live from hand to mouth, and have little reserve for emergencies." Of course we know of persons whose nature it is to be thin—"born that way," some say, but there is a healthy standard by which a person who *knows himself* can gauge his good health or poor health. If for any reason he or she is below his or her normal weight, then it is wise to look out for trouble. In case the germs of grippe, typhoid, or consumption gain an entrance to the body they find a fertile field and develop immediately. We can only compare this sudden taking on of disease germs by the thin body, to the fertile field which lays fallow until an unfortunate wind carries the seeds of some wild and worthless plant there and they quickly root and flourish. Almost any grave change in health is at once betrayed by the loss of flesh, which shows most often in the face. This condition almost always co-exists with impoverished blood. A gain of flesh up to a certain point means a rise in other essentials of health; the red corpuscles of the blood are increased, and the color improved. When persons find themselves losing weight they should heed the warning, and use the proper means in time before disease fastens on them. A tonic alterative is needed to digest and assimilate the food.

Cod-Liver Oil was the old fashioned remedy for a run-down system, of a chronic wasting disease. The digestion of the oil is a task for the healthiest stomach, and sensitive stomachs rebel against it. A great improvement in the means employed for the benefit and cure of such cases is Dr. Pierce's Golden Medical Discovery, which maintains the nutrition of the body by enabling the person to eat, retain, digest and assimilate food. It overcomes indigestion if present, soothes the cough, and, by its alterative properties, cleanses the blood. All the organs therefore are fed on pure, rich blood; and the person using the "Golden Medical Discovery" gains in flesh and strength. Fever, night-sweats, headache, are dispelled. It is just the remedy for the Consumptive, for the victim of Catarrh of the Lungs, or the sufferer from Bronchitis.



A LIFE SAVER.

For over a third of a century Dr. Pierce's Golden Medical Discovery has been in common use in this country, been taken by thousands of people and has cured thousands as our file of testimonials will prove—yet no one ever heard of its harming a single person. That is because it is made of purely vegetable ingredients—is scientifically prepared in the Medical Laboratory of the World's Dispensary, at Buffalo, N. Y., under the supervision of Dr. R. V. Pierce.

$3,000 FORFEIT will be cheerfully paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the originial letters and signatures of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

Mr. Roy A. Reed, of Casper, Wyoming, writes: "For eight years I had catarrh of the throat in the very worst form; could hardly speak above a whisper for two years. Tried nearly a dozen patent medicines without relief. I was so discouraged that I just about decided catarrh could not be cured with any medicine. My father, however, advised me to try Dr. Pierce's medicines before giving up. I followed his advice and commenced using the medicine on the twentieth of December. I was surprised to note the result of the first month's treatment. After using six bottles of Dr. Pierce's Golden Medical Discovery, I was perfectly cured. It has been months since I took the last medicine, and I have not had the least return of my trouble. I have felt beetter during the past two months than for seven winters previous to this time."

Mrs. Lydia James, of Ogdensburg, Wis., writes: "In regard to your medicine will say that the 'Golden Medical Discovery' is a God-send to suffering women. I was sick in bed with liver complaint and kidney disease and fever when I began to take Dr. Pierce's Golden Medical Discovery. In ten days' time I was so I could begin to get around the house, and gained right along. After that, took about five bottles of it and am sure I would have been in my grave by this time had it not been for this remedy. I would advise all suffering women to use Dr. Pierce's medicines."

Mrs. Robt. Lambden, of Havana, N. Dak., Box 94, writes: "No one can tell how much I suffered with my leg. It was so bad for a year I could hardly walk around to do my work, and at times couldn't even bear the weight of a sheet over me at night, but your medicines cured me. My leg is quite well again. After I had taken two bottles of Dr. Pierce's Golden Medical Discovery, I began to feel very different, and kept getting better. Took nine bottles of 'Golden Medical Discovery,' also used Dr. Pierce's All-Healing Salve, and now my leg is as well as it ever was. Am willing every one should know what good your medicines have done, and would advise any one suffering as I did to try the same treatment. I think and feel sure it will help them."

THE REASON.—There is no medicine equal to Dr. Pierce's Golden Medical Discovery, for purifying the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

There is no alcohol contained in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

A CONUNDRUM FOR IMPERIALISTS

When a citizen or subject of a foreign country emigrated to the United States, declares his intention to become a citizen of this country, one of the prerequisites to his being admitted to citizenship, is, a forswearing of allegiance to the country whence he came; which act carries with it the taking of an oath of allegiance to this country.

Here's a conundrum: By acts of Congress approved by the President and affirmed by the Supreme Court, the Philippine islands have been constituted territory belonging to the United States, but the natives of those islands are denied citizenship in and of the United States. Now, when a Filipino leaves the islands, comes to the United States, and declares his intention to become a citizen of this country, to what country and government would he forswear allegiance? Don't let all the imperialists answer this at once, they might have to repent their rashness. Some will say, "he would not be required to forswear allegiance because he is already under allegiance to the United States." Is that so? Well, how can one be under allegiance to this republic and not be a citizen thereof? Let some logician among the imperialists answer this question. Others will say, "The Filipino would not be admitted to citizenship, as he would be an ineligible alien, as is a Chinaman or Japanese emigrated to this country." Go slow brother imperialist. How can a resident property owner and taxpayer in territory belonging to the United States, be an alien ineligible to citizenship in and of the United States? Yet other imperialists will say: "While in the Philippines, the loyal Filipino was subject to the government of Governor Taft as the representative of the United States authority; and, when such a one comes to the United States and takes up his abode here as a citizen, he would only be required to take the oath to support the constitution and obey the laws of this country." Have it so, if you will, bnt tell us how could a Filipino in the Philippines be a loyal Filipino without having taken the oath of allegiance to our government, and how can such oath be taken without swearing to respect, uphold and defend the constitutiou and obey the laws of the United States? And does not the taking of such oath constitute one a citizen of the United States?

The writer does not understand that there is a constitution of the Philippine islands, framed and adopted by a Filipino convention; or, that Governor Taft is a ruler to whom the Filipinos have sworn allegiance. Then, in all seriousness, will some good imperialist please define the political and national status of the Filipino in the Philippines, and what it would be, did he emigrate to the states and become a permanent resident? To a "man up a tree," it appears that in the Philippines the Filipino is a citizen of the Philippine Islands, subject to the government of one Taft, a citizen of the United States. Did he come to the States he would still be a citizen of the Philippines, resident in the United States.

But, query: Would he still be subject to, that is, under allegiance to the government of Taft or his successor; or, to what and to whom would he give allegiance? This offers an interesting problem. Who will solve it?

JOHN AUBREY JONES.

AN ARTICLE in the San Francisco Bulletin of last Sunday, which first appeared in a Sacramento paper, said: "It is rumored here (i. e., at Sacramento) that the next meeting of of the Board of Managers of the Mendocino State Hospital, located at Ukiah, will witness a revival of the King-Niles imbroglio and that a more than lively session may be expected." The article then goes on to rehearse something of the trouble between Superintendent King and ex-Steward Niles, the latter of whom was forced to resign or be fired out bodily. The article was evidently inspired by one of the little Niles faction, in which may be counted Managers Ben. Fehneman and A. Truman. Continuing the Bulletin article says: "At all events the story goes that Superintendent King is determined to install a man named Handy in the vacant stewardship, and that he has already appointed him, but the appointment has not as yet been confirmed by the Board of Managers and the possibility exists that he will not be confirmed."

Of course Fehneman and Truman will try to make trouble about the confirmation of Handy, whom the Superintendent had a perfect right to appoint, because their whole business on the Board seems to be to antagonize Dr. King and the other three members, Hockheimer, Martinelli and Templeton. But when Fehneman and Truman pretend that their opposition to Fred Handy arises from the alleged fact Handy had taken an active part in local politics, "it is to laugh." Everybody about Ukiah knows that Ed. Niles, the pet of Fehneman and Truman, was sent here and forced upon Dr. King as steward for the special purpose of doing politics locally, and that he did take an active hand in local politics in such a manner as to make himself obnoxious to all the better element of his party, as well as a hiss and a by word among the general public. Now, for Fehneman and Truman to sanctimoniously pretend that they don't want a man for Steward because he has taken a hand in local politics, is the very cream of richness, as well as quintessence of gall. But the fact is, and these two Managers know it, that Fred Handy has taken no hand in recent local politics. When Maurice M. Estee was appointed a United States Judge for the Hawaiian Islands, Fred Handy, who then held a responsible position at the asylum, resigned to accept the appointment as U. S. Deputy Clerk in Judge Estee's court. After holding that position to the perfect satisfaction of all concerned for several months, the close confinement proved not best for his health and he was appointed Deputy U. S. Marshal. A few weeks ago he came home on his vacation to visit his parents and other relatives and was persuaded to accept the position of Steward at the asylum. He was not in the United States during the last campaign nor for many months before. But Ed Niles was here, and he was doing factional politics under the dictation of Ben Fehneman and his little coterie of henchmen.

Fred Handy is known to be a thoroly competent man, and that is the kind of servants the state needs in its business. THE DISPATCH is a Democratic paper and the State Hospital is entirely under Republican management, but we cannot permit such misrepresentations as are inferrable from the Bulletin article to go unnoticed.

WE CALL the attention of our readers who are engaged in farming and stock raising to an article in this weeks issue under the head of "Utilizing our Resources." The time has almost come when Mendocino county should broaden out in the development and fuller utilization of her natural resources. We are inviting people to settle within our borders and we, who have been here long enough to know something of our possibilities, ought to take the lead in such enterprises as will fully demonstrate them to new comers. There is much land in this county which will grow alfalfa luxuriantly with irrigation. Many such locations are not convenient to a full supply of water flowing in streams. But nearly everywhere in the valleys water can be had by pumping. But some will say that pumping is slow and expensive. But science has made it easy and cheap. An electrical power plant located upon a convenient branch of Eel River, and run by water power can be made to furnish power, not only for unlimited pumping, but to run all the machinery and lights that will be needed in the eastern half of the county for years to come. Some of the streams emptying along the coast can be similarly utilized. It pays to raise alfalfa and it pays to irrigate it. It pays to raise fruit and vegetables in your own community, instead of importing them. And irrigation will work wonders in developing the country.

The Folsom Prison Escape

Last Monday morning thirteen desperate convicts at Folsom State Prison, by preconcerted arrangement, rushed into a room where Warden Wilkinson and some officers and guards were holding a consultation, and brandishing knives, ordered them to surrender. Guards Cotter and Cochrane resisted and Cotter was killed and Cochrane despeately wounded. The convicts then forced the Warden and officers to go to the prison armory, where they took all the arms and ammunition they wanted, destroying the rest. They left the prison taking their prisoners with them. Before going far, Warden Wilkinson and Captain of the Guard Murphy gave out and were allowed to return. The alarm was soon given and telegrams were sent in every direction. Posses were organized, Companies of the National Guard were called out, special trains charted and every possible step taken to recapture the escapes. The convicts kept the captured guards with them and took the road for Pilot Hill. On the way they took possession of a wagon and four-horse team. At Pilot Hill they looted a store of large quanities of provisions, and then went on. A mounted posse was close behind them, and they were soon over taken a short distance from Pilot Hill. A battle ensued in which one convict was killed and one slightly wounded. The pursued then abandoned the wagon and the road, and night coming on the pursuit was hindered until morning. During the night, or early Tuesday morning, the convicts released the balance of their prisoners. The convicts were seen Tuesday morning in the neighborhood of Cool. They were robbing farm houses as they went and great excitement prevails thruout the hills. The names of the escapes were:

J. J. Allison; San Joaquin; robbery; four years.

Frank Case; Los Angeles; robbery; life.

Edward Davis; San Francisco; robbery; thirty-three years.

Ray Fahey; Sacramento; robbery life.

Harry Eldridge; Alameda; robbery; thirty years.

R. M. Gordon; Sacramento; robbery; forty-five years.

Fred Howard; Sacramento; robbery; fifteen years.

Frank Miller; Fresno; burglary; twelve years.

Joe Murphy; Contra Costa; robbery; fourteen years.

James Roberts; San Francisco; robbery; twenty years.

Albert Seavis(colored); Sacramento; robbery; life.

Joe Theron; San Francisco; robbery; life.

J. H. Wood; San Francisco; robbery; life.

Those captured by the convicts were:

Thomas Wilkinson, the warden.
Harry Wilkinson, stenographer.
J. J. McDonough, the overseer.
R. G. Murphy, captain of the guard.
C. H. Ward, chief engineer.
W. J. Hopton, guard.
Jack Klenzendorf, guard.
L. S. Ventrees, guard.
James Dolan, night watchman.
Guy Jeter, quarry foreman.
Tony C. Brown, stage driver.
Daniel Foster, farmer.
Ben Stotman, farmer.

The news Wednesday afternoon was that the convicts were entirely surrounded in a gulch near Greenwood, Eldorado county. Later news, however, indicates that their exact locality is not known by the pursuers. They seem to be laying low and hiding in the brush. As they are dressed in citizens clothing it is hard to distinguish them from pursuers who are scattered all thru the hills in parts of Eldorado and Placer counties.

Reliable News Wanted

The Chronicle has had the poor Pope dead half a dozen times, and the Bulletin says the strikers have the Fort Bragg mill practically shut down.—Fort Bragg Advocate.

Will the Advocate please tell us whether or not there is a strike on at Fort Bragg? If there is, no doubt Brother Cavanagh could enlighten us as to its present status. We don't know whether the San Francisco papers are to be relied upon or not. They tell the country that there is a strike in progress at Fort Bragg. Is there?

The Campbell Case

On Wednesday afternoon the civil case of Walter Campbell against W. H. Duffield and J. H. Smith was on trial before a jury in Justice Crockett's court in this city. A. J. Bledsoe represented the plaintiff, E. F. Swortfiguer appeared for Mr. Duffield and J. E. Pemberton was Mr. Smith's attorney. The suit was to recover pay for services rendered as keeper in charge of property under attachment. In November, 1902, Duffield got an attachment against a certain planing mill near Willits in a suit against one Young, plaintiff Campbell being at that time in possession of the mill as lessee. Deputy Sheriff Mast, of Willits, served the attachment, and then put the lessee, Campbell, in charge of the property as keeper, telling him to look out for it, and when the suit against Young was settled he, Campbell, would get his pay. Campbell claims that he acted as such keeper for forty-five days, but only charged for thirty-five days, because during the time he had run the mill ten days, getting out mill stuff for the Willits school house, which he and his partners were then building under contract.

When the suit against Young was settled, Campbell spoke to Mast about his pay and was told to go to Duffield. He spoke to Duffield and was told to apply to Sheriff Smith. He wrote to Sheriff Smith and Under Sheriff Gibson replied instructing him to go to Duffield. Growing tired of travelling in a circle and reaching no terminus, Campbell decided to sue both Smith and Duffield.

As the law provides that the value of a keeper's fees must be fixed by the court in which the attachment suit is pending, not to exceed $2 per day, and as the court had not taken any such action, plaintiff denies in this suit that he is suing for keepers fees, but that he is suing for pay for services performed at the behest of defendants Duffield and Smith. He claims $3 per day, and that he was employed by the agent and deputy of Sheriff Smith.

There was a three-cornered argument at the close, each attorney talking for his own client. The jury brot in a verdict for $70 in favor of plaintiff and against Defendant Duffield, and found in favor of J. H. Smith. Attorney Swortfiguer intimates that he will appeal to the superior court.

Death of Judge R. W. Crump

With sincere sorrow we chronicle the death of Superior Judge R. W. Crump, who died at his home in Lakeport on Thursday evening of last week of heart disease. The Ukiah bar and people deeply regret Judge Crumps death, he having endeared himself to all by his gentlemanly demeanor and concientious fairness during the frequent times he presided in our Superior court.

Judge Crump was a member in good standing, of the Lakeport M. E. church, South, Hartley Lodge F. & A. M., Clear Lake Chapter O. E. S. and Lakeport Lodge A. O. U. W.

The following sketch of the deceased jurists life we take from the Clear Lake Press:

Judge Crump was born in Greenville County, Virginia, September 25, 1828, and was therefore nearly seventy-five years of age. At the age fifteen years he moved with his mother and her family, his father having died, to Shelby County, Tennessee, near Memphis. He resided there until the fall of 1851, when he moved with his wife, having been married to Miss Caroline Pierce, of Hafifax, North Carolina, in 1850, to Poinsett county, Arkansas. He was admitted to the practice of law in that county in 1855. In the early part of 1860 he moved to Panola county, Mississippi. He served in the Confederate army during during the war with the rank of Captain. His first wife having died he married Mrs. Lenora B. Clanton of Sardis, Mississippi, in the fall of 1871. In 1875 he moved with his family to California and for two years was city editor of the Santa Rosa Democrat. He came to Lake County in the fall of 1877 and edited the Lake County Bee until he was elected District Attorney in 1879 when he resumed the practice of law. He was again elected District Attorney in 1886. He was elected Superior Judge in 1890, again in 1896 and for the present term in 1902.

Judge Crump has made a splendid record as Superior Judge having suffered but few reversals at the hands of the Supreme Court. He was known throughout this portion of the State as a jurist of sterling integrity, ability and courage. We feel that in his death the County has suffered a loss little short of a calamity.

Will Soon Become a Benedict

Corporal J. W. Pemberton, one of the popular non-commissioned officers of Company E of this city, is in Mendocino county on a camping and hunting trip with friends.

Before he started the gallant corporal confided to friends in this city that he intended to shortly become a benedict and would lead to the altar a popular girl. The congratulations will be renewed upon his return. Engagements are becoming very popular with the members of the local militia, and there are to be two other interesting weddings very soon.—Santa Rosa Press Democrat.

Corporal Pemberton is a brother of Attorney J. E. Pemberton of Ukiah.
